Customer Technical Support provided by the vendor is available at the user/individual level	X		<a href="https://www.qualtrics.com/support/">https://www.qualtrics.com/support/</a>

[Additional Open Response Questions to be Answered by the Vendor \(max 150-word response per question\):](#)

1. Is there a cost to LEAs to use your application? If so, what is the cost? Yes, there is a cost, it is based on employee/student count. Outside of helping with the Covid solutions, Districts have leveraged the power of Qualtrics to help with the new normal. Pulsing stakeholders to understand their wellbeing, navigate the remote/onsite experience. Help with school operations and keeping the district running through workflows and processes.
2. Describe the data analytics LEAs will have access to and how they will access those analytics. The Analytics are web based in a role-based dashboard with individual user logins.
3. How will the application use individual and/or LEA-level meta data? The application via API or SFTP can bring in meta data so it does not need to be asked in the daily assessment as well as when getting feedback from stakeholders and tie the response back to an individual.

4. Submit at least one use-case for the application, and up to three. Daily Symptom Tracking and Contact Tracing for staff and students, flexible tool used in a variety of ways by 90% of the fortune 1000.
5. How many users does the application already have? Currently Qualtrics has millions and millions of users worldwide, with a variety of different use cases.
6. How many users based in Texas does the application already have? We currently work with 25 Districts Including Region 4, 13, 10, and TEA.
7. What is the vendor's experience working with similar projects? Qualtrics has been in business since 2002, we have stood up this solution for the entire city of Houston, statewide in Iowa, Nebraska, and Utah, as well as with many other cities and counties across the United States.
